To:

Sabrina - I'll need to spend more time with the powerpoint to give you more specific feedback, but overall I like the approach. I like having specific data in the beginning. I think people in Silverton are interested in detailed analysis. If you don't get into some real detail about the numbers and instead discuss issues in broad terms, people will feel they don't have enough to sink their teeth into. A couple of initial comments, there are some statements about the 319 program which aren't correct and I'll send you more comments on that. I think you need to expand upon the community's role in the Governor's letter. Certainly, there needs to be more detail about BLM's role and the American Tunnel. Perhaps, BLM should be the presenters during the later part of the presentation.

Subject: planning to send out the EPA presentation - very rough draft

Hello all, Sorry for the delay. It is almost 10MB, so I don't know if you all will get it. I am going to attach it to a 2nd email

tonite, so
let me know if you don't get it. I may have to set up a .ftp site.
I realize it needs much editing, and I am working to cut the
redundancies and focus on the message for August. I would really
appreciate any input you can provide, but know you have alot going
on
too - just needed to get you something to hack away at.
If you want others to also review it, please forward and let me
know who
you sent it to.

Sincerely,
Sabrina Forrest
